GRAVITON

CGC UNIVERSITY MOHALI
Shaping Tomorrow, Today

SAVISKAR 2026
THEME: AEVORIAN REVERIE

24-Hour Offline Hackathon:

- These rules are intended to provide a clear and fair framework for all participating teams. Participants are expected to comply with the official event schedule, venue instructions and organizer announcements

Eligibility:

- GRAVITON is open to college/university students across India.
- Each team must consist of 3–4 members.
- Students from different colleges, universities, branches and specializations may form a team.
- Every participant must complete the official registration process.
- One participant may be part of only one team.

Hackathon Duration:

- GRAVITON is a 24-hour offline hackathon.
- Participants must develop and present their project within the officially announced hackathon period.
- Participants must follow venue access, reporting and check-in instructions issued by the organizers.
- Late submissions may be rejected or handled according to the official submission policy.

Project Development:

- Projects should be substantially developed during the hackathon.
- Open-source tools, APIs, SDKs, frameworks, AI/ML models, and public datasets are allowed.
- Teams must explain and demonstrate their project.
- Plagiarism, copied projects or falsely claiming another person's work as original may result in disqualification.

Submission Requirements:

- Working prototype/demo, where applicable.
- Source-code repository or other requested code submission.
- Project documentation with problem/solution details.
- Tech stack and deployment/demo links.
- Any additional materials requested by the organizers must be submitted before the announced deadline.

Judging Criteria:

- Innovation and originality of the solution.
- Technical implementation and engineering quality.
- Impact and relevance to the selected problem.
- Scalability and potential for practical use.
- Functionality and quality of the working prototype.
- User experience and usability.
- Clarity and quality of the final presentation and demonstration.

Code, Licenses & Intellectual Property:

- Ensure proper rights for all third-party code, data, images, and APIs.
- Follow all applicable open-source licenses.
- Disclose significant third-party technologies used.
- Follow any sponsor-specific IP terms.

Code of Conduct:

- Participants must maintain respectful and professional behaviour.
- Harassment, discrimination, intimidation, threats or disruptive behaviour are not permitted.
- Participants must follow reasonable instructions from organizers, mentors, volunteers and venue authorities.
- Participants must not damage venue property, event infrastructure or another team's equipment.

Security & Prohibited Activities:

- Unauthorized access to another team's systems, accounts or data is prohibited.
- Malware, destructive code and intentional disruption of event infrastructure are prohibited.

- Credential theft, unauthorized collection of personal information and attacks against third-party systems are prohibited.
- Participants must comply with applicable laws and third-party terms of service.

Final Presentation:

- Shortlisted teams must present their project to the jury.
- Teams should be prepared to demonstrate a functioning prototype. Judges may ask technical, product, business and implementation-related questions.
- Teams must accurately represent the actual capabilities of their project.

Disqualification:

- A team may be disqualified for plagiarism or substantial unauthorized copying.
- Falsifying registration or project information may result in disqualification.
- Violation of eligibility requirements, submission rules, code of conduct or security requirements may result in disqualification.
- Serious misconduct or violation of venue/event rules may result in removal from the event.

Jury & Organizer Decision:

- The jury's decision regarding judging and awards will be final and binding.
- Organizers may clarify, interpret or update operational instructions where necessary to conduct the event fairly and safely.
- Participants are responsible for checking official organizer communications for schedule or rule updates.

Participant Responsibility:

- By participating in GRAVITON, teams agree to follow these rules, venue requirements, applicable laws and reasonable instructions issued by the organizing team.
- Participants should keep their registration details, project submissions and required identification documents available when requested.
