THRUST POWERED VEHICLE CHALLENGE

CGC UNIVERSITY MOHALI
Shaping Tomorrow, Today

SAVISKAR 2026
THEME: AEVORIAN REVERIE

Team Composition & Registration:

- Maximum of 30 teams may participate in the competition.
- Each team must consist of 2 to 4 members.
- Every team must nominate one Team Leader, who will act as the primary point of contact with the organizing committee.
- All team members must be registered before the start of the competition
- The competition will be conducted in two stages: a Qualifying Round and a Final Round.
- The Top 8 teams from the Qualifying Round will advance to the Final Round.

Vehicle Design Rules:

- Each team must independently design and build its own balloon-powered car.
- The car must be powered solely by air released from a baloon.
- Only one balloon may be used per attempt.
- No motors, batteries, fuel, springs, or any other external or stored power source is permitted.
- The car must be constructed using safe, competition-appropriate materials; sharp, hazardous, or flammable materials are not a lowed.
- All cars must pass inspection by the organizing team before the competition begins.

Reference specifications for construction:

PARAMETER	SPECIFICATION
Power source	One (1) single-use balloon only — air pressure release.
Prohibited Power source	Motors, batteries, springs, rubber-band launchers, combustion, or any external push/pull.
Track Length	To be announced by the organising committee (recommended 5-8 m straight track).
Starting Method	Car placed at start line by team member(s); released with no further contact.
Balloon Inflation	Self-inflated by the team just before the attempt, within the time allocated.

Race Conduct:

- Cars must start stationary at the marked starting line.
- No pushing, pulling, guiding, or touching the car after the race starts.
- Each team gets 2 qualifying attempts; the better valid attempt counts.
- Attempts are invalid if the balloon is manually assisted, the car is touched after release, or leaves the track due to interference.
- Intentional interference with another team's car results in immediate disqualification.
- Tie-breaker races will be conducted between tied teams.
- Judges' and Organising Committee's decisions are final and binding.

Safety Guidelines:

- Handle balloons and inflation equipment carefully.
- Cars must have no loose or protruding parts that may cause injury.
- Teams must clear the track promptly after each attempt.
- Any safety issues must be corrected before competing.
- Organisers may disqualify unsafe cars at any stage.

Judging Process:

- Scores from all criteria will be combined using the weightages above to determine each team's Final Score.
- Rankings from the Qualifying Round will determine the Top 8 teams advancing to the Final Round.
- In the Final Round, the same criteria and weightages will apply to determine the overall winners.

Code of Conduct:

- Teams are expected to display good sportsmanship at all times.
- Disrespectful behavior towards judges, organizers, or other teams will not be tolerated and may result in disqualification.
- Teams must report any damage or issue with their car to the organizing commi ttee immediately, before their attempt.
- Photography, videos, and celebrations are welcome, provided they do not interfere with ongoing attempts.

Awards & Recognition:

- Winner, Runner-Up, and Second Runner-Up will be awarded based on Final Round rankings.
- A Best Innovation Award may be given to the team with the most creative design, at the judges discretion.
- Certificates of participation will be provided to all registered teams.
