Shaping Tomorrow, Today

SAVISKAR 2026
THEME: AEVORIAN REVERIE

Eligibility :

- The competition is open to Optometry students.
- Each team may consist of 2–4 participants.
- Each participant/team can register for one project only.

Working/ Static Model Rules:

- Static models must be 3D, creative, and educational.
- Models should clearly demonstrate an optometric vision-related concept.
- Participants are encouraged to include interactive features such as movable parts, rotating components, optical demonstrations, or QR-linked educational content.

Presentation & Demonstration:

- Each team will receive 5–7 minutes for presentation and demonstration.
- Participants must explain the concept, working principle, optometric relevance, innovation, and applications of their project.
- Judges may ask questions related to the project and its clinical/scientific relevance.
- Participants must be present during the judging session.

SAVISKAR 2026
THEME: AEVORIAN REVERIE

Safety Regulations:

- Projects must not involve hazardous chemicals, high-voltage electrical systems, harmful radiation, or direct laser exposure to the eyes.
- No experiment involving risk of injury to participants or visitors will be permitted.
- Any project involving human participants must be conducted only with appropriate faculty supervision.
- The organizing committee reserves the right to disqualify any project considered unsafe.

Judging Criteria:

- Innovation & Originality – 20 marks
- Working Functionality / Model Quality – 25 marks
- Optometry Relevance – 20 marks
- Technical Creativity – 15 marks
- Presentation & Demonstration – 20 marks

General Rules:

- Participants must maintain discipline and follow the instructions of the organizing committee.
- All projects must be displayed within the allotted space and time.
